

# Faceskool

*An educational platform as a service with focus on working with schools - Nursery, primary, junior high schools, senior high schools, colleges and universities - to build and continuously deliver installable Apps within their workspace(s) on Faceskool for the purpose of fostering student's collaboration, engaging directly with parents and efficiently running school's administrative operations.*

**Building the most powerful platform for schools**

Inspired by the way management, parents and students work to get things done, together.

## Organize with workspace

Workspaces on Faceskool is where all the magic happens, where people will spend the most time doing their best work to keep your school branches running. Need to keep operations at your different school branches separate? not a problem, create a workspace for each of your school branch, install Apps from the Workspace App Store needed to run the school branch, invite staff members that will work in each of the school branches and let them get to work without interfering with what is happening in other school branches on Faceskool.

Need to have someone among your staff members work across your entire school branches on Faceskool; cool, just invite them to all your school branch workspaces you want them to work in, Faceskool lets such individuals seamlessly switch branch faster than the speed of sound.

With Faceskool, you can create workspace(s) for the various branches of your school across geographic zones and be able to work across all of them with a single account. Faceskool makes it really easy to organize your school branches and workforce and let them go about doing their work in a more productive way.

We are our own customer, the very first paying customer on Faceskool platform, because we use **Faceskool Workboard App** every day to track all the beautiful work we put in to make Faceskool a better platform for our customers. If anything is broken, we see it first and fix it, even before our other amazing customers see it. This is what makes us different from other school management system, you can always reach out to us on our country wide support workspace on Faceskool with your questions, we will be glad to help out in whatever way we can.

Each school branch or workspace has a profile page that shows information like its contacts, students, administrators, feeds and overall, best performing students for a given academic session and term.

## Kestrel International School

Kestrel International School is a comprehensive secondary school (grades 9-12) situated in the peaceful city Jos, Plateau state. Currently, we have a diverse student population of approximately 1000 students. In addition to our extensive range of courses, clubs and programs, a few highlights include: Hockey Skills Academy; variety of academic classes, including the new STEM program; junior and senior Musical Theatre; many athletic teams; and Career Programs including: Culinary Arts/Cook Training, Law Careers and Outdoor Leadership. We are very proud of our full band program with Junior and Senior Concert and Jazz Bands and a Marching Band. Spectrum students enjoy our state-of-the-art Library as well as 2 computer labs and our popular cafeteria service.

# Communicate, share knowledge and stay connected

Workspaces on Faceskool, have a news feed feature on its dashboard that keeps everyone within it up to date with news, stories and updates shared by members of the workspace to keep everyone informed. The news feed comes with automated birthday shout out on the feed stream, letting everyone know that someone has got his or her special day. People can post informative stories that everyone in the workspace can read and comment on. Also, the news feed allows administrators to effectively broadcast news or a quick update to everyone in the workspace. Everyone will receive a newsletter-like message in their inbox. News feed also has an inbuilt capability to automatically post a shout-out message on the feed stream when it's someone's birthday so that team members can write birthday wishes on their Profile page.

## Know what your management staff are doing

Faceskool Workboard is an App that can be installed within a workspace, to assign work, organize work by priority and project/category, have back and forth communication on a given task and visually monitor in real time the progress of staff members as they move work from a status of **TODO**, to a status of **DONE**. Faceskool Workboard is a robust App that is highly interactive in that everyone within a given project/category is up to date with progress made so far. With the Faceskool Workboard App, you can track every piece of work that needs to be done and be able to clearly tell the status of the work; you no longer need to be chasing staff members to get an update from them on what they are doing, simply going over to a given project/category board, you can tell by looking at the board the status of the work the staff are doing and where they are.

Faceskool Workboard App gives you the visual power and a continuous workflow update, to organize all the work that staff members need to do in one place and to watch how staff members get work from a status of todo to a status of done.

### JSS1A

Real education should consist of drawing the goodness and the best out of our own students. What better books can there be than the book of humanity. By educating our students we create given them leverage, by creating leverage, we also create opportunities for them.

### Literature (JSS1A)

Literature broadly is any collection of written work, but it is also used more narrowly for writings specifically considered to be an art form, especially prose fiction, drama, and poetry. In recent centuries, the definition has expanded to include oral literature, much of which has been transcribed. Literature is a method of recording, preserving, and transmitting knowledge and entertainment, and can also have a social, psychological, spiritual, or political role. Literature, as an art form, can also include works in various non-fiction genres, such as biography, diaries, memoir, letters, and the essay. Within its broad definition, literature includes non-fictional books, articles or other printed information on a particular subject.

**Home Economics (JSS 1A)** Home economics, or family and consumer sciences, is today a subject concerning human development, personal and family finance, housing and interior design, food science and preparation, nutrition and wellness, textiles and apparel, and consumer issues. Home economics courses are offered around the world and across multiple educational levels. Historically, the purpose of these courses was to professionalize housework, to provide intellectual fulfillment for women, and to emphasize the value of "women's work" in society and to prepare them for the traditional roles of sexes.

## Mathematics (ISS 1A)

Most of mathematical activity consists of discovering and proving (by pure reasoning) properties of abstract objects. These objects are either abstractions from nature (such as natural numbers or a line), or (in modern mathematics) abstract entities that are defined by their basic properties, called axioms. A proof consists of a succession of applications of some deductive rules to already known results, including previously proved theorems, axioms and (in case of abstraction from nature) some basic properties that are considered as true starting points of the theory under consideration. The result of a proof is called a theorem. Contrary to physical laws, the validity of a theorem (its truth) does not rely on any experimentation but on the correctness of its reasoning (though experimentation is often useful for discovering new theorems of interest).

## Keep track of students' academic performance

Faceskool Gradebook is an App you can install within a school workspace to help with managing all things that has to do with students' assessments, exams, grading, reporting, transcripts, broadsheets and class ranking. With a growing number of report sheet templates, you can choose from. Faceskool Gradebook provides you with the tools you need to efficiently manage student related assessments and reporting. The Gradebook app comes with default configurations for assessment options, grading, trait categories and trait options, trait column ratings. A given report sheet has a lot of attributes that can be turned off and on, for example class positions, subject positions, lowest and highest scores for a given course in a class are all activated, you can turn these options off if you do not want them to show up in a student report sheet.

Optional report card templates you can choose from for generating student's reports, some subscription plans allows for custom report card templates to be built

## Smart payroll for handling salaries and loans

Faceskool Payroll is an App you can install within a school workspace to help with coordinating staff payroll and loan management. It makes it easy for your staff members to seamlessly request for loan, for an admin to review the loan request from a staff member and decide if it should be granted or not and for staff members to eventually receive the loan or have it denied for some reasons, in a more organized way. Staff member monthly payroll are automatically generated for you after you have manually worked on it for the first time. Subsequent ones are automatically generated for you to review and make changes as needed.

### Staff Member Payslips for October-2020-Payrollin Ecton Village

Note: Meaning of key columns in the payslips :

**Budgeted Amount** : is the amount that will be charged to your creditcard if you are using the Faceskool Integrated Payment Gateway for settling salaries for staff members.

**Total Additions** : is the sum total of all addible salary items from the role a staff member belong to as listed in their Salary Structures.

**Total Deductions** : is the sum total of all deductible salary items from the role a staff member belong to as listed in their Salary Structures.

**Loan Refund** : is the loan refund amount deducted from the salary of a staff member on loan, based on their approved refund plan.

**Month Salary** : is the actual amount to be paid as salary to a giving staff member for the current payslip.

#	Recipient	Description	Days(Worked)	Info	Status
1	Domingo Alonzo Cohen	October (2020) Payslip	31 Days	Budgeted Amount : ₦65,000.00 NGN Total Additions : ₦65,000.00 NGN Total Deductions: ₦0.00 NGN Loan Refund: ₦0.00 NGN Month Salary: ₦65,000.00 NGN	Paid Payslip <a href="#">View Slip</a> - <a href="#">Print</a>
2	Vamsee Priyanka	October (2020) Payslip	31 Days	Budgeted Amount : ₦302,500.00 NGN Total Additions : ₦302,500.00 NGN Total Deductions: ₦0.00 NGN Loan Refund: ₦0.00 NGN Month Salary: ₦302,500.00 NGN	New Payslip <a href="#">View Slip</a> - <a href="#">Edit Slip</a> - <a href="#">Confirm Payment</a> - <a href="#">Print</a>

The application learns the date you do payroll and, on that date, automatically generates team member payroll entries for you to review. It also automatically tracks team members on loan and adjusts their take home pay, based on the agreed refund policy.

# Effectively Manage Student's Billing

Faceskool features a billing App that effectively manages student billing and invoicing; with the ability to track outstanding payments, payment reporting and statistics. If you have a payment method configured, the App sufficiently handle fee collections through the various in-built payment gateways. The flexibility of the App is what makes it unique, for example you can choose to schedule fees to be collected at installment or have discounts, the auto generated invoices will work accordingly

## Apps, Not Bloated Features

Cutting-edge Apps power the Faceskool platform, giving schools the flexibility to choose the set of Apps they want installed on their workspaces depending on their functional requirements. Faceskool Engineers continuously build Apps that optimally solve a specific problem and release them so that schools can install them on their workspaces to extend their workspace functionality. We are always interested in building Apps that improve the way people generally work at schools and we are open to suggestions from schools on the nature of Apps they would want to have up and running on their workspaces.

### Workspace Apps Install applications for Kestrel International School workspace

**Note :** Review this list of available Apps and select the ones you want to install for **Kestrel International School** workspace. Workspaces need applications that would run within them and they are what people will eventually be interacting with in your workspace

 <b>People</b> is an App that is responsible for managing user records on Faceskool <small>Category : Core Application</small> <b>Installed</b> -	 <b>Profile</b> is an App that schools can use to efficiently manage the people that make things happen within a workspace. It facilitate viewing and editing of both parents, staff and students... <small>Category : Core Application</small> <b>Installed</b> -	 <b>Pupil</b> is an App that schools can efficiently use to manage student information, enrollments or admissions, class progresses, class promotions, and academic deferments of students. It... <small>Category : Grade/High School</small> <b>Installed</b> - <b>Uninstall App</b>
 <b>Roles</b> is an App that schools can efficiently use to manage access rights of everyone on their workspaces as well as define specific roles that people are allowed to perform by setting... <small>Category : Core Application</small> <b>Installed</b> -	 <b>Search</b> is an App that schools can efficiently use to search for students, parents and staff within a given workspace <small>Category : Core Application</small> <b>Installed</b> -	 <b>Settings</b> is an App that schools can efficiently use to perform various custom configurations that affects their workspace(s) and individual accounts. <small>Category : Core Application</small> <b>Installed</b> -
 <b>Statistics</b> is an App that generates various statistics about objects on Workspaces and Faceskool services	 <b>Store</b> is an App that lets you to browse through other Apps on Faceskool which you might be interested in installing on	 <b>Story</b> is an App that facilitate real time conversations on workspaces. It makes it possible for people to share stories,

With Faceskool monthly subscription, you pay based on the **Monthly Active Users (MAUs)**, at a rate determined by the subscription plans as shown above per month, for up to 240 hours of usage. A user is counted as a MAU if, within a calendar month, the user uses Faceskool for either administrative, collaborative or learning purposes. If a unique user spends more than 240 hours in any of your active workspaces in a month, you are charged \$0.028 for each additional hour spent. **You are not charged for inactive users within that calendar month**; except for the related subscription plan flat fee to cover for infrastructure costs and storage.

## Summary

Managing a school can really be a hassle, a daunting task, which must be done to arm and build up the young people of any nation to become better informed citizens that will help, in their own respective ways, contribute towards the growth of not only their country, but other countries of the world; that is why we built Faceskool, **a platform inspired by the way management, parents and students work to get things done, together.**

Faceskool is not in the business of selling school management system or platform. Instead, Faceskool is focused on selling innovation – the change – that the platform can bring to schools, students and parents. We designed and launched Faceskool **because we wanted to create an educational platform as a service with focus on working with schools - Nursery, primary, junior high schools, senior high schools, colleges and universities - to build and continuously deliver installable applications within their workspace(s) on Faceskool for the purpose of fostering student collaborations, engaging parents and efficiently running school's management operations in the cloud.**

Faceskool is a product owned, developed & maintained by  
Peregrine Technologies Nigeria Limited,  
a private limited liability company registered  
under the laws of the Federal Republic of Nigeria,  
(RC 1549110)
